

PLACER COUNTY AIR POLLUTION CONTROL DISTRICT

REGULATORY MEASURES LIST

- List of Rules to Be Considered for Adoption in 2006 -

January 2006

The listed rules or regulatory measures are being considered for adoption or amendment in the 2006 calendar year. If the rule or regulatory measure is not addressed in 2006, it may be considered for adoption or amendment in the 2007 calendar year or later. If the rule identified below has a number assigned (e.g. Rule 207) it is an adopted rule of the District and an amendment of the rule is to be considered.

In accordance with Health and Safety Code Section 40923, a regulatory measure may not be considered for adoption during any year that it is not listed in the most recent published list of proposed regulatory measures unless earlier consideration is required to satisfy federal requirements, to abate a substantial endangerment to public health or welfare, or comply with Section 39666 (i.e. required to implement State Air Toxic Control Measures) or 40915 (i.e. contingency measures contained in air quality plans). This listing requirement does not apply to administrative rules that are not control measures, or to the modification of any existing rule that the District finds is necessary to preserve the original intent of the rule or to increase opportunities for alternative compliance methodology. Although not required, the list provided includes rules that need not be listed for Section 40923 purposes to the extent such rules have been identified.

Regulatory Measures That Were Adopted/Amended in 2005:

No new rules or regulations or amended rules or regulations were adopted in 2005.

Regulations Being Considered for Adoption in 2006:

- Revision of Rule 502, New Source Review, and as necessary Rule 501, General Permit Requirements, and Rule 504, Emission Reduction Credits, and/or the adoption of new rules, that address the mandatory reform requirements promulgated by U.S. EPA on December 31, 2002 (i.e., Federal New Source Review Reform) of state and local new source review rules that are applicable to Major Stationary Sources.
- Revision of Rule 506, Biomass Emission Reduction Credits, to incorporate changes that will make biomass emission credits from rice straw and other field crop burning acceptable for use as offsets for stationary sources subject to U.S. EPA review.
- Adoption of an Indirect Source Rule is being considered to assist the region in meeting Federal Air Quality Standards and California Clean Air Act requirements to implement all feasible measures. The indirect source rule would seek emission reductions from land uses that attract or generate motor vehicle trips. These emissions may be reduced directly, through the on-site mitigation of emissions, or through off-site mitigation strategies achieved by collecting and utilizing air quality impact fees. (Carried-over to 2006 from prior years)
- Adoption of a new rule or new provisions for an existing rule defining the authority of the District to inspect permitted facilities and to collect, record, and preserve evidence or information upon inspection (including documentation of compliance and non-compliance by the taking of photographs)

REGULATORY MEASURES LIST

- List of Rules to Be Considered for Adoption in 2006 -

and video images); and to provide for requesting compliance information, is being considered. This is an administrative requirement. (Carried-over to 2006 from 2005)

- Adoption of a new rule requiring specified and limited categories of permitted facilities to install, operate, and maintain particulate matter continuous emission monitoring systems, and to record emission data and report such data to the District. (Carried-over to 2006 from 2005)
- Adoption of a new rule, or if it is determined that no significant sources of such emissions exist in Placer County, alternatively the adoption of a negative declaration, for Synthetic Organic Chemical Manufacturing Industry (SOCMI) Distillation operations may be considered. (Carried-over to 2006 from prior years)
- Adoption of new fees for toxic new source reviews, area wide and indirect source reviews, naturally-occurring asbestos dust control plan reviews and fees to recover District costs for other reviews that are not necessarily "Permit Fees" may be considered, and rules separate from Rule 601, Permit Fees, may be considered. Fee rules are administrative and are not regulatory measures, however the consideration of the fee rules is mentioned to be as complete as possible in the disclosure of planned rules and rule changes. (Carried-over to 2006 from prior years)

Regulations Being Considered for Adoption in 2007:

- Amendment of Rule 225, Wood Fire Appliances, is being considered. The rules requirements that now apply only to Squaw Valley may be made applicable to all of Placer County, and updated to reflect current feasible particulate matter control strategies for fireplaces and wood fired appliances. (Rescheduled from 2005 to 2007)

The Amendment of the Following Existing Rules is also Being Considered: The District has identified the possible need for updates and changes to these existing rules. Although the consideration and proposal of necessary changes to all of these rules is desired, due to the Staff resources required to consider and propose amended rules for adoption it is expected that the amendment of most of the rules listed will be deferred and only those rules that are identified as priorities will be fully considered and proposed for amendment in 2006.

REGULATION 2 - PROHIBITIONS

RULE 202	VISIBLE EMISSIONS
RULE 203	EXCEPTIONS TO RULE 202
RULE 207	PARTICULATE MATTER
RULE 212	STORAGE OF ORGANIC LIQUIDS
RULE 214	TRANSFER OF GASOLINE INTO VEHICLE FUEL TANKS
RULE 215	TRANSFER OF GASOLINE INTO TANK TRUCKS, TRAILERS AND RAILROAD TANK CARS AT LOADING FACILITIES
RULE 224	AGGREGATE CONTAINING ASBESTOS
RULE 225	WOOD FIRED APPLIANCES
RULE 231	INDUSTRIAL, INSTITUTIONAL, AND COMMERCIAL BOILERS, STEAM GENERATORS, AND PROCESS HEATERS

PLACER COUNTY AIR POLLUTION CONTROL DISTRICT

REGULATORY MEASURES LIST

- List of Rules to Be Considered for Adoption in 2006 -

RULE 232	BIOMASS SUSPENSION BOILERS
RULE 234	AUTOMOTIVE REFINISHING OPERATIONS
RULE 236	WOOD PRODUCTS COATING OPERATIONS

REGULATION 3 - OPEN BURNING

RULE 301	PROHIBITIONS ON OPEN BURNING
RULE 302	BURNING PERMITS
RULE 303	EXCEPTIONS TO RULE 302
RULE 304	PERMIT VALIDITY
RULE 305	NO BURN DAYS
RULE 306	EXCEPTIONS TO RULE 305
RULE 307	AGRICULTURAL BURNING REPORTS
RULE 308	DETERMINATION OF AMOUNT BURNED DAILY
RULE 309	APPROVED IGNITION DEVICES
RULE 310	RESTRICTED BURN DAYS
RULE 311	WIND DIRECTION
RULE 312	MINIMUM DRYING TIMES
RULE 313	EXCEPTIONS TO RULE 312
RULE 314	PREPARATION OF MATERIAL TO BE BURNED
RULE 315	BURNING OF AGRICULTURAL WASTE
RULE 316	RANGE IMPROVEMENT/FOREST MANAGEMENT BURNING
RULE 317	WILDLAND VEGETATIVE MANAGEMENT BURNING
RULE 318	LAND DEVELOPMENT OPEN BURNING
RULE 319	RIGHT-OF-WAY CLEARING AND LEVEE, DITCH, AND RESERVOIR MAINTENANCE BURNING
RULE 320	OPEN BURNING CONDUCTED BY PUBLIC OFFICERS
RULE 321	HAZARD REDUCTION BURNING
RULE 322	MECHANIZED BURNERS
RULE 323	OPEN BURNING OF NONINDUSTRIAL WOODWASTE AT DESIGNATED DISPOSAL SITES
RULE 324	RESIDENTIAL RUBBISH BURNING
RULE 325	RECREATIONAL OPEN FIRES

REGULATION 5 - PERMITS

RULE 501	GENERAL PERMIT REQUIREMENTS
RULE 502	NEW SOURCE REVIEW
RULE 503	EMISSION STATEMENT
RULE 504	EMISSION REDUCTION CREDITS
RULE 505	PRIORITY RESERVE
RULE 506	BIOMASS EMISSION CREDITS
RULE 507	FEDERAL OPERATING PERMIT PROGRAM
RULE 508	GENERAL CONFORMITY
RULE 509	TRANSPORTATION CONFORMITY
RULE 511	POTENTIAL TO EMIT
RULE 512	REQUEST FOR SYNTHETIC MINOR SOURCE STATUS

REGULATORY MEASURES LIST

- List of Rules to Be Considered for Adoption in 2006 -

REGULATION 6 - FEES

- RULE 601 PERMIT FEES*
- RULE 602 HEARING BOARD FEES*
- RULE 603 ANALYSIS FEE*
- RULE 604 SOURCE TEST OBSERVATION AND REPORT EVALUATION*
- RULE 607 BURNING PERMIT FEES*
- RULE 608 CONTROL COUNCIL FEE*
- RULE 610 AIR TOXICS "HOT SPOTS" FEES*

REGULATION 8 - ENFORCEMENT

- RULE 801 ENFORCEMENT*
- RULE 802 AUTHORITY TO ARREST*
- RULE 803 PENALTIES*
- RULE 804 ORDER FOR ABATEMENT*
- RULE 805 NOTICE TO COMPLY*
- RULE 806 ADMINISTRATIVE CIVIL PENALTIES*

REGULATION 9 - AIR TOXIC CONTAMINANTS

- RULE 902 AIRBORNE CHROMIUM CONTROL MEASURE - EMISSIONS OF HEXAVALENT CHROMIUM FROM CHROME PLATING AND ANODIZING OPERATIONS
- RULE 903 ETHYLENE OXIDE AIRBORNE TOXIC CONTROL MEASURE FOR STERILIZERS AND AERATORS
- RULE 904 AIRBORNE TOXIC CONTROL MEASURE - HEXAVALENT CHROMIUM EMISSIONS FROM COOLING TOWERS
- RULE 905 AIRBORNE TOXIC CONTROL MEASURE - ASBESTOS CONTAINING SERPENTINE ROCK IN SURFACING APPLICATIONS
- RULE 906 AIRBORNE TOXIC CONTROL MEASURE - MEDICAL WASTE INCINERATORS

*** Not a regulatory measure**
